

**MiYOSMART**

**MiYOSMART: the smart way to treat myopia in children.**

**2020 SILMO d'Or Award Winner**

MiYOSMART is a new non invasive myopia management lens - safe, convenient and just like wearing ordinary spectacle lenses.

**HOYA**  
FOR THE VISIONARIES

Helping you to provide reassurance for parents.

With the return to school we are aware that there is a greater risk of a child scratching their new MiYOSMART spectacle lenses, so we wanted to help you provide even more reassurance for parents by offering a further extension to our current MiYOSMART warranty.

So, if a child scratches their lenses within the first year we will provide the replacement lenses at half the cost (T&C's apply\*).

## **Warranty Offer**

- One month “no quibble” peace of mind guarantee will now cover both non tolerance and scratching.
- Further 11 month scratch warranty – 50% discount on one pair of lenses replaced due to scratching.

## Terms & Conditions\*

- The 50% discount – can only be used once within a one year period from date of collection and will be applied to the current list price.
- If a claim is made under the RX change warranty, the 50% scratch warranty applies to the original collection date and order, it does not reset with the newly supplied lenses.
- Any order placed under the scratch warranty will need to be ordered to the same prescription as original order and be for the same patient (or in the case where a claim has already been made under the RX warranty, the ordered pair must be to the RX supplied within the warranty).
- The scratched lenses must be returned once the replacement lenses have been supplied and fitted.
- The MiYOSMART return form should be completed to confirm the details of the original order (or RX warranty RX).

## Peace of Mind Guarantee

If a child's myopia progresses more than -0.50D in 12 months we will replace 1 pair of lenses at no charge.
